

Michael Graham

Associate Business Systems, **Software Division**

Qualifications

Ostendo Enterprise Partner
HR3 Accredited Reseller
MYOB Certified Consultant
Reckon Professional Partner
Accredited Consultant

Background

Michael joined the Firm in 1998 and specialises in tailored financial solutions and advice on a wide variety of accounting systems.

Michael has been responsible for the project management of numerous large operational and software implementations in the Manufacturing, Jobbing, Services and Wholesale Distribution sectors. He's also completed hundreds of new financial system implementations including staff training and documentation.

As a recognised expert with a deep understanding of businesses financial systems, Michael's skills have been employed to write detailed reports highlighting areas where automation and efficiency can be gained and controls tightened. His insights have led to major cost savings and significant productivity improvements for numerous organisations. Along with his software technical talents, Michael has strong accounting skills.

These have been applied on behalf of clients to conduct detailed financial statement reviews in the absence of an internal accountant. An accomplished speaker, he's presented workshops and seminars on accounting system functions and key performance indicator development for major organisations such as the Australian Medical Association (NSW) and the Australian Association of Practice Managers (AAPM).
